Robin Gregg, Publisher

Ralls County Commissioners,

March 14, 2022

As discussed on our conference call this am, this is a specific cause letter for why the Sealed Bid Notice for Asphalt Overlay on Joanna Drive in Perry was not ran in the Monroe-Ralls paper in 2021.

On November 2, 2021, at 10:13am (Tuesday) Hali Romig emailed me if it was too late to get a bid into the paper. I was in the hospital with my husband at this time, Lacey Shumard was taking care of office and the layout of the paper. I informed Hali, it was not and we'd squeeze it in. I informed Lacey regarding the additional ad and she was to put it in. I didn't check it and I should have.

On November 22, 2021 at 11:06am, (my first day back in office) I double checked all of November and found the ad didn't run as requested. I emailed Hali and informed her of this finding and asked if she'd like it to run then.

During this time frame, a person was hired to do the job.

On December 8, 2021 at 10:17am, Hali Romig emailed me asking about an invoice #142725 which was a charge for the asphalt bid ad. I requested our accounting department to credit this amount.

I sincerely apologize for the miscommunication on our end.

Sincerely,

Robin Gregg, Monroe-Ralls Publisher

NOTICE OF PERMIT MODIFICATION

As required by the Missouri Department of Natural Resources and the United States Environmental Protection Agency, Green America Recycling, LLC (GAR) and Continental Cement Company, LLC (CCC), located in Hannibal, Missouri, must notify all persons included on the RCRA Permit mailing list whenever a modification to the Approved RCRA Permit occurs. This notification covers two updates to the RCRA permit.

First, this notification letter is updating you on a class 1 permit modification not requiring director's approval, submitted to the Missouri Department of Natural Resources by GAR. This modification involved updates to the facility list of site emergency coordinators.

Second, this notification letter is updating you on a request for temporary authorization, submitted to the Missouri Department of Natural Resources on behalf of GAR. This request involved piping changes and the addition of valves and flanges to the facility's rail yard piping configuration.

These modifications do not alter GAR's treatment or storage capacities.

If you have any question, please feel free to contact me at (815) 353-0606 or via email at dan.carney@continentalcement.com.

Respectfully submitted,
GREEN AMERICA RECYCLING, LLC / CONTINENTAL CEMENT COMPANY, LLC

Junior Muehring made a motion to adjourn. John Lake seconded the motion. Motion passed unanimously.

Commission will meet again on March 24th, 2022, unless convened by court.

Wiley Hibbard
Presiding Commissioner

Since our first application we have been as accommodating as possible to the neighbors that do oppose. We've drawn the line in tremendously from our original plan and have provided the waste water lay out as requested.

We have now made another accommodation by vowing to not use cannon water until their project is complete. We will haul our own water which has been approved to do so by the Department of Health.

Some of the things that have been brought up is the driveway, how much square footage each cabin will be, etc. things that really don't amount to much in the grand scheme of things.

There's people that have come in that are a great distance from us. One of which is at the end of CC whom would see no traffic at their dwelling from our campground.

I could continue to speak of some of the ridiculousness during the two zoning meetings with the zoning board but you folks were there you saw it.

In the first meeting Mr. Lake mentioned that folks love to see progress in their county they just don't want it around them. Mr. Lake is right. This is much of the reason for the

* Butch Harrison *

resistance yet there are three land owners that butt up to our property that are not in opposition to our request.

During all of these meetings there has been some extremely unfair and bias elements. A conflict of interest has been allowed to thrive during this whole process. Everyone in this room knows exactly what I'm talking about. The person that I speak of has been allowed to go on a campaign against our project both while out in the public and by sitting on the board during the zoning meetings.

This has created an extremely unfair element during this process because of his influence to the other board members and employees of the county which has permanently tainted the process. *for us.*

Even his demeanor during the second zoning meeting was beyond shameful. This should not be tolerated in this county and one's power and influence should not be allowed to be wielded in such a way. It is truly scandalous.

Now again I say we have gone above and beyond to comply with the concerns of the zoning board and the commissioners. I'm begging you to not hold your thumb upon us any longer and allow us to move forward with our way of life.

We know we will have to labor to work with our neighbors and our community to build and manage a reputable campground. Anyone in here that knows Cindy and I knows that we do not fear work and we will not quit until we have accomplished what we have set out to do.

THE RALLS COUNTY COMMISSION MEETING

Ralls County Presiding Commissioner, Wiley Hibbard called the adjourned meeting to order with the following members present; Junior Muehring, Eastern District Commissioner; John Lake, Western District Commissioner; and Ralls County Clerk, Kristal Hiner.

Junior Muehring opened the meeting with prayer. The Pledge of Allegiance to the Flag was made.
