THE RALLS COUNTY COMMISSION MEETING

Ralls County Presiding Commissioner, John Lake called the adjourned meeting to order at 9:00 am with the following members present, Junior Muehring, Eastern District Commissioner, John Wieczorek, Western District Commissioner, and Brandy Flynn, Ralls County Clerk.

Junior Muehring opened the meeting with prayer.

The Pledge of Allegiance to the Flag was made.

Michael Himes, Campus Director, with Hope Center Ministries, Michael Trent, Paris Campus, Director with Hope Center Ministries, Corey Allen, Pastor with Compassion Church, and Several Ralls County citizens were in attendance (please see sign in sheet). Shane McClelland, Planning & Zoning Administrator, joined the meeting via phone call and placed on speaker.

Mr. Himes talking points;

- **Apologized about not checking to make sure there was no Planning & Zoning after their realtor told them there wasn't**
- **Property in the middle of nowhere – neighbors usually don't even know we are there. Walk through the program with Jesus**
- **Hope Center Ministries was started in 2007 – is a 501© 3 and loves donations**
- **We do take people off the streets and from jail but have a process for application and admissions to program. We do not go to jail and solicit.**
- **Hope Center Ministries does not take Sex Offenders or anyone with violent or aggravated offenses or robberies. We do background checks and talk to judges, probation and parole.**
- **Program is for people hooked on drugs or other addictions**
- **Corey Allen Pastor with Compassion Church, and Ralls County Citizen is going to be the Recovery Administrator and is an employee**
- **4 Staff Members – 2 paid and 2 interns, home has supervisors there 24 hours a day, cameras on the vans and on the property everywhere. Interns are graduates of the program with 6 months or more sobriety out of the program. The Director can help because they have gone through it. 55% of the 170 employees with Hope Center Ministries are graduates of the program.**
- **We are not a medical facility and do not take insurance**

- Allow some mental health meds – if on the acceptable drug list. Will help applicants find services that are best suited for their needs by partnering with other agencies.
- Explained the Program, Pastor Allen's position, Michael is the Director (not for Ralls County Location) – Program is 365 days 24 hours a day– Application fee is \$700.00 – do not accept insurance, church will sponsor if someone cannot afford. In the applicants' contract they are required to stay with the job that is set up for them through the work program. Not allowed to quit or jump jobs. When applicant arrives they are drug tested, *if they are positive, - they are not allowed to DETOX on the property. Will take them once they test clean from DETOX. 3 Phases they must complete – 1st Phase is 4 weeks – wake up at 4:00 am, devotion at 4:15 am, breakfast, house chores like mowing yard. Hope Center teaches them to take care of their stuff. 12-1:00 pm Lunch and Take Showers, 1:00 -4:00 pm they meet with their Counselor (2x's a week will be 1:1, Celebrate Recovery is 5 days a week, which is the 12-step program (Steps written just like AA & from Bible), and small group), Christ centered AA meetings, 4:00 pm – 5:00 pm supper all together once everyone has returned to the home. Friday Night is family night. Phase 2 – Vocational Training Program – up to week 48 – Set up work programs with local businesses and counseling once a week along with other chores and learning life skills to be able to sustain a life and provide for their families. Phase 3 – Still counseled once a week, Do the Dave Ramsey 6-week challenge. Set up checking account - Create a home plan – what there day will look like 6 weeks after they graduate. Family Day Pass may be allowed if they meet criteria and all boxes checked.
- Example Michelin Tire work program contract wants 10 men all the time. Hoping to make those connections with Ralls County business like General Mills, Watlow, Tyson Foods, and maybe Doyle Manufacturing
- Day Passes are structured and only 6 hours – Family member has to been through our family program and passed background check, there has been no discipline, been there longer than 60 days and always supervised.
- Staff members will transport the men to their work programs
- Graduation rate is 65%
- We accept lost people and Christians – we are non-denominational
- Willing to help the neighbors with their yards and mowing or anything
- Hire someone to plow road – our guys will need to get to work.
- Residency is regulated by Fire Marshall – 50ft/sq per person with 5 bedroom max – example 200 square feet room can house 4 beds.
- Do pay rent that goes towards the payment on the property – Realtor had to move fast and we paid cash – loan was taken out later

- Will probably be spending \$2,000.00 a week on food.
- If a guy becomes violent – we remove everyone from the house, call the police if needed, there are Policy and Procedures we are required to follow. If physical - policy based on the law
- Peers are their supervisors
- Septic Permit was acquired before we hired a local contractor to fix the septic
- Mr. Himes has a degree in Theology and earned it through Global University and is a graduate of the program

Ralls County Citizen talking points and concerns;

- Hard to find someone in jail with only drug violations, your entity is from out of state and own property in Ralls County through LLC.
- Why transport them to services instead of building on the Church compass?
- How does it work if someone can't pay?
- Transportation to jobs and what about bad weather
- Majority of Ralls County residents work out of Ralls County and go to work – I have lived with family members addicted and no different from me or others who must travel for work.
- What is the graduation rate?
- Do you accept non-Christians?
- Do you take people with PTSD? We hunt and have a shooting range. Our property is right next to yours. Contractors do not know property lines and piling up next to our crops. I asked Steve Whittaker back in April if this was sold to halfway house. He said NO it wasn't. Will you hire someone to plow the road.
- Problems with secrecy and lack of communication
- How many residents?
- What do you do if a guy becomes violent?
- I work for the Missouri Correctional System – There are 25 to 30 places out over the State for people to get treatment. Faith based recovery programs are the most successful. Short programs are ones where we see people return to prison.
- Did you get a permit for the septic?
- Do you Mr. Allen have a Theology degree?

Josh Pottebaum & Keegan Corrigan with Veregy met with the Commissioners regarding the recent ad for CMAR. Explained they couldn't respond to the ad because it had to have different wording referencing energy savings. The Commissioners explained that we are looking at different options and have not

Elliott Morris stopped by the Commission meeting to thank the Road & Bridge guys for brush mowing on Malaruni.

At 10:40 am – The Ralls County Commission moved to the Courtroom upstairs to accommodate the Ralls County citizens attending the Commission meeting regarding the Data Center. Please see attached sign in sheet.

John Lake, Presiding Commissioner, said this is not a debate, please bring up your concerns. The Commissioners do what is best for their county and citizens. NONE of the Commissioners have talked to anyone from a Data Center, only the electric company. The County is fortunate to have Planning & Zoning in the county. The County has a Solar ordinance in place with regulations like 75% American made with 2% of Ralls County land at 6500 acres allotted for Solar. The tenant selling 53 acres in Ralls County to a Data Center has talked to water and the electric company. Sept 16th there is a Planning & Zoning meeting at 7:00 pm to sign a resolution of the Ralls County Planning & Zoning Commission relating to a 12-month moratorium on Data Centers to allow for amendments to the Ralls County, Missouri Planning & Zoning Ordinance. The Planning Zoning will vote at this meeting on the moratorium.

There has been no contact with Commissioners or Clerk's office.

The County can set regulations/restraints through Planning & Zoning.

John Lake said, "It was my idea from the beginning to have the citizen vote on the ordinance/regulations." A citizen asked, "Why have the people vote?" Junior Muehring said, "Because people say we don't go to the citizens." A citizen asked, "How soon will it be on ballot?" possibly in April 2027

A citizen voiced concerns about Data Centers and them trying to get you to sign non-disclosure agreements. Junior Muehring said he would not sign, John Wiecek said he would not sign.

Some other concerns from citizen asking the Commissioners to take into account are – What is the cost? Time, tourist, money, environmental, electric supply cost, where is water coming from and what is mixed with the water and disposal of this water, water contamination, population, decommissioning bond, health risk, look at noise level both dba – decimal and dbc – low buzz, electric rates going up for the Ralls County citizens, and dangers to near by neighbors.

Junior Muehring said those are some of the things we as a County are going to look at. Most of these centers are using a closed looped water system.

Lynn Hodges, RCEC, said he has had lots of calls, but they have limited load capacity at any given substation of 30-50 megawatts. RCEC, without any infrastructure improvements, can only support small sites. The data centers will pay upfront the cost. Will not cost the citizens. Postpone rate increases for 3 to 5 years. This will bring positive funding for the schools and our county.

A citizen voiced their concerns to Mr. Hodges that there have been rate increases to the citizens rates. Mr. Hodges said, Prove it. There has been no documentation to prove this.

Mr. Hodges said that there are no agreements signed.

Other citizens concerns were “Is it going to make power worse? Who is going to pay for peak demand? Once there was a discount for Geo-Thermal and now are the same price and no discount is given. Mr. Hodges said there is a disconnect from other power sources. RCEC purchases electricity from Northeast Power.

A citizen said we want the truth. John Wieczorek doesn't want Data Centers. John Lake is neutral. Are you looking at tax benefits & jobs? Junior said, “Not for Data Centers.” John Lake said, “Not for Data Centers.” John Lake said, “Do you think I would bring something to this county that would hurt a baby? The citizen asked, “Have you looked at those things and moratorium.” We want the citizens to be able to vote.

Citizens would like for 2 critical environmental impacts done and share the information. John Lake said hopefully DNR will do one.

July Term

August 20th, 2026

A rezoning process would have to take place to be zoned Commercial.

David Lomax, Presiding Commissioner in Marion County spoke saying Marion County signed a Moratorium to get their duck in a row for Data Centers. There are lots of areas they are looking at some are the noise dba and dbc, water – closed loop system, corrosion (if water is moving okay – if not moving bad)

John Lake moved to adjourn at 12:03 pm. Junior Muehring seconded the move. John Lake asked if there was any further discussion. No further discussion. Move passed unanimously.

John Lake – Yes

Junior Muehring – Yes

John Wieczorek- Yes

THE RALLS COUNTY COMMISSION MEETING

Ralls County Presiding Commissioner, John Lake called the adjourned meeting to order at 8:00 am with the following members present, Junior Muehring, Eastern District Commissioner, John Wiczorek, Western District Commissioner, Planning and Zoning administrator, Shane McClelland, Road and Bridge supervisor, Glen Wiley, Road and Bridge Secretary, Kristal Hiner, Planning and zoning board members, David Talbott, Lowell Jackson and Kaleb Thompson, Ralls County Sheriff, Brian Allen, Ralls County Deputy, Mulheron and Kristen Dietle, Ralls County Deputy Clerk.

Junior Muehring opened the meeting with prayer.

The Pledge of Allegiance to the Flag was made.

John Lake opened the meeting by informing everyone that the Commission was planning to sign the moratorium. Junior Muehring clarified that the meeting held on Sunday was his idea and was not John Lake's. Attendees were informed that they would have three minutes to speak. Shane McClelland would call the names of those who indicated on the sign-in sheet that they wished to speak.

Shane McClelland called Daivid Palmer to speak.

David Palmer stated that he and his family were not for the data center. He also spoke as an RCEC board member and let everyone know that RCEC would have to provide power to the data center if it were to be built.

Shane McClelland called Sandy Lanier to speak.

Sandy Lanier asked if they signed a non-discloser agreement with a Data Center. The commission stated they had not. She also asked if they have signed a non-discloser agreement with Hannibal Economic Development. They said they did not. She asked how they appointed library, health and planning and zoning board members. The commission told her for planning and zoning board they would go to social media and word of mouth. They would then appoint them. She asked if Glen Wiley was a board member. They said yes, he was, that was his job as a road supervisor.

Shane McClelland called Tiffany McIntire.

Tiffany McIntire wanted to know what was in the moratorium. John Lake read the Moratorium out loud. She wanted the commission to do their own studies. The commission said that is what they planned to do.

Shane McClelland called Benita Embry to speak.

Benita Embry stated she was not for Data Centers. She said her concerns were water, electricity and noise.

July Term

August 23rd, 2026

Junior Muehring, John Lake and John Wieczoreck said they would not sign a non-discloser agreement.

Shane McClelland called Jaime Ross to speak.

Jaime Ross asked if the commission should have a lawyer that was experienced in planning and zoning and the current data center issues. The commission assured Mr. Ross they do have experienced attorneys.

Shane McClelland called John Paul Tomko to speak.

John Paul Tomko said he was a Marion County resident and was a candidate for State Representative. He feels like the Data center push came in after the legislative session ended intentionally. He thinks the data centers will have a negative impact on wildlife, and he thinks the commission should do a third-party study.

Shane McClelland called Ron Richards to speak.

Ron Richards said he does not want data centers and thinks the land value will go down. He wants to know if property assessments will change if this happens. The commission said that is a question for the Assessor.

Shane McClelland called Jeff Ferry to speak.

Jeff Ferry said he believes this is the government pushing data centers but does not believe it is the local government's fault. He feels it will destroy the land, and we need to find a way to stop it from coming in.

Shane McClelland asked if anyone else wanted to ask questions.

Lynn Thomas- Heath raised her hand to speak. She stated that she has done her research and says this will affect our power and water cost. She worries about waste. She says in her research she said there was bacteria found in water and they sprayed this on the fields. She said she had contacted Erin Brockovich.

John Lake said he would like to put this on the ballot to have the citizens vote on Data Centers.

Charlie Booher said he worried about waste water in creeks.

Aaron Woodhurst raised his hand to speak. Aaron thanked the commission for signing the moratorium. He asked the commission if they would have more meetings. The commission said they would have more meetings about the data center.

At 8:43 am John Lake made a motion to sign the moratorium. Junior Muehring second the motion. John Lake asked if there was any further discussion. No further discussion. Motion passed unanimously.

A MORATORIUM RESOLUTION

Establishing an administrative delay on the acceptance or processing of approvals relating to the establishment or expansion of economic development projects; providing an exception for acceptance and processing of an application under certain circumstances; and fixing the time when this resolution shall become in effect.

WHEREAS, economic development projects and data center facilities can have significant impacts on infrastructure, including demands on electrical power, water supply, environmental, residential homes, and telecommunications networks, as well as potential impacts on surrounding land uses, natural resources, public services, and the character of the community; and

WHEREAS, the Ralls County regulations do not currently contain specific regulations, standards or definitions addressing the unique characteristics, demands and potential cumulative effects and impacts of economic development projects and data center facilities evolving under its Zoning Ordinances and regulations, which are a rapidly growing and evolving land use across the United States and in Ralls County; and

WHEREAS, because of possible effects of economic development projects on the community, the county commission intends to consider revisions to the standards designed to protect the health, safety, and general welfare of the community; and

WHEREAS, the county commission finds that a temporary administrative delay in the acceptance or processing of applications relating to the establishment or expansion of economic development projects and data center facilities is necessary to ensure planned, orderly development consistent with the character and welfare of the County by enacting appropriate regulations and by following planned State statutes and regulations, and by revising the county's Zoning Ordinances; and

WHEREAS, the county commission has determined that it is necessary to temporarily suspend acceptance or processing of applications relating to the establishment or expansion of economic development projects and data center facilities while appropriate regulations, standards and definitions may be developed through a comprehensive public process involving the Missouri General Assembly and the county; and

WHEREAS, a temporary delay in the acceptance and processing of applications will allow county staff the necessary time to study the issue and make recommendations to the county commission regarding revisions to the county standards related to economic development projects and data centers, and ensure consistency and fairness by preventing projects of a negative effect on county residents and the use of unincorporated county lands; and

Now therefore, be it resolved by the County Commission of Ralls County, Missouri, as follows:

SECTION 1. The county commission makes and reaffirms the findings set forth above and incorporates the same by reference as if fully set forth herein.

SECTION 2. Except as otherwise provided herein, no application pertaining to the establishment or expansion of an economic development projects or data center, including, but not limited to, applications for road usage, permits, site plans and architectural reviews, variances, flood plain development permits, conditional use permits, grading permits, and/or occupancy permits, may be accepted or processed by the County from the date of passage of this resolution until September 1, 2027.

SECTION 3. For the purposes of this ordinance, economic development projects and "data center" shall mean a building, group of buildings, facility or premise whose primary use for economic activities covering at least 50 unincorporated county acres and a value of at least \$3 Million consistent with revised Zoning Ordinances.

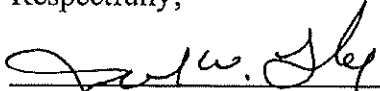

SECTION 4. The county commission may, by resolution, allow the processing of an application for the establishment or processing of an economic development project or data center under any of the following circumstances:

- (a) The commission determines that failure to allow processing of the application would cause undue and substantial economic hardship on the property owner, adequate infrastructure exists (or will exist at the completion of the project) to provide necessary services to the use proposed by the application, and the application, if approved, would not be otherwise detrimental to the health, safety, and general welfare of the county, or adversely impact residential property owners within 1000 linear feet from the closest planned external wall of the project to an occupied residence; and
- (b) The commission determines the proposed application complies with all existing and foreseeable planned state statutes and regulations, adequate infrastructure exists (or will exist at the completion of the project) to provide necessary services related to the application, and consideration of such application will not be otherwise detrimental to the health, safety, and general welfare of the county residents.

SECTION 5. This resolution shall be in full force and effect from and after its passage.

Adopted by the Ralls County Commission meeting is a properly called public meeting, a quorum being present on 23rd day of August 2026 by:

Respectfully,

John Lake
Presiding Commissioner

AGREEMENT FOR PROFESSIONAL SERVICES

THIS AGREEMENT made this 24th day of August, 2026 by and between

Ralls County Commission

311 S. Main St., New London, Missouri 63459

hereinafter called the OWNER and **Hutchison Engineering, Inc.**,
1801 W. Lafayette Avenue, P. O. Box 820, Jacksonville, IL 62651, hereinafter called the ENGINEER.

WITNESSETH: That whereas the OWNER desires Professional Engineering or Land Survey Services as follows:

Prepare and submit Regional Bridge Program Application for up to two (2) bridges. Application(s) for a combination of funding through BRO and Emerging Needs and Large Bridge Fund will be prepared.

NOW THEREFORE:

The ENGINEER AGREES to provide the above-described services in accordance with the generally accepted engineering practices.

The OWNER AGREES to compensate the ENGINEER for a lump fee of **\$500**. Any services provided beyond the above-described Scope of Services will be compensated at the actual time spent in providing said additional services in accordance with the ENGINEER's attached Schedule of Hourly Charges in effect at the time the services are performed, unless otherwise provided herein.

IT IS MUTUALLY AGREED:

Payment for the services rendered shall be made monthly in accordance with invoices issued by the ENGINEER. Invoices not paid within thirty (30) days from the date of the invoice will be considered delinquent and shall bear interest at the rate of 12% per annum from the date of invoice until fully paid and OWNER shall be liable to ENGINEER for any reasonable attorney's fees, court costs or related expenses incurred in connection with the effort to collect said delinquencies. Services may be suspended by ENGINEER if payments are not paid within thirty (30) days of OWNER's receipt of invoice. In the event that the ENGINEER deems that a lien or other legal action is necessary to enforce collection of services rendered, the OWNER shall bear all lien fees, legal expenses and court costs.

Either the OWNER or the ENGINEER may terminate this agreement at any time by giving the other party five (5) days written notice thereof, in which case, the ENGINEER shall be paid in full for all services performed to the date of termination.

The OWNER agrees to limit the ENGINEER's liability to the OWNER and to all construction contractors and sub-contractors on the PROJECT, due to the ENGINEER's negligent acts, errors or omissions, such that the total aggregate liability of the ENGINEER to all those named shall not exceed fifty thousand dollars (\$50,000.00) or the ENGINEER's total fee for services rendered on this PROJECT, whichever is greater.

IT IS FURTHER MUTUALLY AGREED:

The OWNER and the ENGINEER each binds himself, his partners, successors, executors, administrators and assignees to each other party hereto in respect to all the covenants and agreements herein and except as above, neither the OWNER nor the ENGINEER shall assign or transfer any part of his interest in this AGREEMENT without the written consent of the other party hereto.

IN WITNESS WHEREOF, the parties hereto have made and executed this AGREEMENT as of the day and year first above written.

Ralls County Commissioners:

I have received a resignation letter from Board of Trustees Member Alaina Lawrence effective August 2026. Her term ended July 2026.

In her place, I ask that you consider Jim Meyer as the appointee to join the Ralls County Library Board of Trustees. I have talked with Jim about this opportunity, and he is excited to join our mission if approved by you. Jim will bring a wealth of knowledge of Board of Trustees experiences as well as his role serving on the Friends of the Library/Dolly Parton Imagination Library group. His experience serving our county is noticeable. Jim will serve the New London area and will be filling a 3 year term to expire July 2029.

Thank you for your time. Please let me know if you have any questions.

MEMORANDUM

Missouri Department of Transportation
Maintenance/Bridge
Northeast District

TO: David Koenig -br
FROM: Joseph Haggard
Assistant District Bridge Engineer
Northeast District

DATE: August 17, 2026

SUBJECT: Ralls County Bridge Notes

STRUCTURES CLOSED THIS INSPECTION CYCLE: None

PREVIOUS OPEN BRIDGES WITH 3 RATINGS:

NUMBER OF STRUCTURES MORE THAN 50 YEARS OLD 14

NUMBER OF STRUCTURES LESS THAN 20 YEARS OLD 17

NUMBER OF OPEN STRUCTURES IN POOR CONDITION 8
(RATING OF 4 OR BELOW)

NUMBER OF OPEN STRUCTURES IN GOOD CONDITION 19
(DECK, SUPERSTRUCTURE, SUBSTRUCTURE &
CULVERT RATINGS ALL ARE 7 OR ABOVE)

- Bridges rated 3 now require annual inspections instead of every 2 years.
- Bridges that have a Fracture Critical Member in poor condition require annual inspections.

THE FOLLOWING BRIDGES NEED ANNUAL INSPECTIONS DUE TO THESE REQUIREMENTS:

2210008, BRIDGEWATER LANE

2790001 ILASCO TRAIL 279

ANY OTHER STRUCTURES IN THE COUNTY'S INVENTORY THAT WOULD BE AFFECTED BY THE CHANGE IN REGULATIONS ARE CURRENTLY CLOSED.

ALL BRIDGES WITH POSTED WEIGHT LIMITS WERE IN COMPLIANCE THIS INSPECTION CYCLE FOR HAVING VISIBLE SIGNS IN PLACE.

MoDOT IS STILL CURRENTLY RE-EVALUATING LOAD RATINGS FOR ALL NON-STATE BRIDGES, EXPECT SOME BRIDGES THAT PREVIOUSLY DID NOT HAVE WEIGHT LIMITS TO HAVE A WEIGHT LIMIT AFTER COMPLETION OF THE LOAD RATINGS.

OTHER STUFF:

MoDOT IS CURRENTLY UPGRADING THEIR ONLINE PROGRAM THAT WE USE TO KEEP OUR INSPECTION RECORDS.

I CANNOT PROVIDE UPDATED COPIES OF THE INSPECTION REPORTS UNTIL THIS IS COMPLETED.

ONCE THEY ARE AVAILABLE I WILL PROVIDE THE COUNTY WITH UPDATED INSPECTION REPORTS.

THE RALLS COUNTY COMMISSION MEETING

Ralls County Presiding Commissioner, John Lake called the adjourned meeting to order at 9:00 am with the following members present, Junior Muehring, Eastern District Commissioner, John Wieczorek, Western District Commissioner, and Brandy Flynn, Ralls County Clerk.

Junior Muehring opened the meeting with prayer.

The Pledge of Allegiance to the Flag was made.

In attendance: Lynn Hodges, RCEC, Glen Wiley Road & Bridge Supervisor, Zach Epperson Road & Bridge Employee, John Wallace, Mike Scholes, Charles Booher, Barry Casey, Lynn Thomas-Heath

John Wallace asked if there was still going to be a Planning & Zoning meeting on September 16, 2026? - No planning zoning meeting on September 16, 2026.

John Lake moved to sign updated moratorium. John Wieczorek seconded the motion. John Lake asked if there was any further discussion. No further discussion. Move passed unanimously.

John Lake – Yes

Junior Muehring – Yes

John Wieczorek- Yes

The Ralls County Clerk, Brandy Flynn, discussed the requirements for ADA Compliance for the Ralls County Website and Facebook page. They are currently not in compliance with the new regulations and will need to be updated before FY 2028.

The Ralls County Clerk Brandy Flynn gave a brief explanation of the tax levy setting process, where the assessed valuation numbers come from, tax rate ceiling and rollback process and the proposed tax rate levy presented in the public hearing notice for General Revenue and Road & Bridge. She also explained that from other Counties that have had a significant increase in their assessed valuation their levies are reduced.

Evan Mallet, Scout Energy wanted to know how the moratorium going in effect was going to effect Lucky Rock Solar project out by Rensselaer 1200 acres. All economic development is on hold for a year.

Lynn Thomas – Heath asked Mr. Mallet some questions – How are you hooking up? Are you bringing in batteries? Mr. Mallet’s response is connecting to Ameren substation – NO battery banks

Junior Muehring said he has not seen the MOU but not changing the 75% American made and the \$6,000 MW name plate. Mr. Mallett said “We have worked with attorney and been going back and forth. The penalty proposed by us came out a little below and can be adjusted to be equally or higher.” Mr. Muehring said, “He wasn’t wanting to negotiate. Need to stay consistent and be the same across the board.”

Mike Scholes asked Mr. Mallet, “Will the power stay in Ralls & Marion County?” Mr. Mallett responded, “It will go to the grid.” Mr. Scholes said, “Taking farm ground and food prices will rise.” Mr. Mallet responded saying, “Most of the soy is going to Chinese and the corn is ethanol.” Mr. Scholes said, “Still good farm ground.” Mr. Mallet said, “Bad ground.” Mr. Scholes said, “Cost with transportation.” Mr. Mallet replied, “The farmers say it is their least farmable ground.”

Lynn Thomas-Heath asked, “If she could see the MOU?” Ralls County Clerk Brandy Flynn, responded, “Not till after MOU has been finalized and signed. Is considered closed while negotiating terms.” Ms. Thomas – Heath asked, “What attorney the county is using, from here or not?” Eastern District Commission Junior Muehring, responded, “We use an attorney from St. Louis.” Mr. Mallett explained, “The county has one of the strictest decommissioning bonds. Would like it if Ralls County could be in line with other counties. This could be a “Deal Killer”. We are working together to come to an agreement and benefit the county.”

Presiding Commissioner, John Lake asked, “What if you have to wait till September 2027?” Mr. Mallett replied, “We must have our stuff for the State Public Service Commission Certificate of Necessity ready for in March. We are currently meeting with State Historic Preservation Office. This step must be taken before and completed before we submit it to Public Service Commission. Mr. Muehring said, “Crops are already in the ground.” Mr. Mallet replied, “Waiting till crops are out and then will be ready to go. We added acreage to remove acreage to close to residents and golf course. Moved south to a more rural area. Almost done with the map – 30%. “

Ms. Thomas-Heath asked Mr. Mallet, "What did you see that made you move?" Mr. Mallet's response was, "Trees and the cost to cut them down and families. More expensive to move to that area cost less to get where we needed."

Eastern District Commissioner Junior Muehring, asked John Wallace, "What is your opinion?" Mr. Wallace replied, "It is your own land. I sit on the RCEC and water board"

Shane McClelland, Ralls County Planning & Zoning Administrator & Josh Ketsenburgh, Ralls County Assessor joined the meeting at 9:56 am.

Mr. Ketsenburg, asked Mr. Mallet, "Will your company provide a Shapefile to my office?" Mr. Mallet's response, "Yes at least hope it will be in Shape as built serve. In your ordinance requirements and clarification – to fill conditional use permit the county will need a resolution issued because over 50. Rules & Regulations." Mr. Muehring replied, "We have to hear from our counsel. If we change regulations, we do have to go to the board. Others are going to want it. "Mr. Mallet said, "Problem is going to get investor to agree to \$6,000 mw."

Mr. Wallace asked, "What is the \$6000 mw?" John Lake replied, "\$6000 per megawatt is what we heard that the State was proposing last year at Missouri Association of Counties conference."

Mr. Mallet said, "This is not in an Enterprise Zone. Blue Jay was part of both the old and new price per megawatt. There are lots of questions regarding the new ordinance."

Ms. Thomas-Heath said, "Data Center there is pollution, Solar less more environmental. Property owners should be able to do what they want. We live off the grid."

Glen Wiley, Road & Bridge Supervisor then replied, "We pushed more regulations for Solar is what he said. This is what we are planning on doing with Data Centers. Just haven't had a chance to yet." John Lake replied, "We have not been contacted yet. Some people don't know there are solar panels in the county."

Mr. Mallet said, "We will have one of our construction guys here. Like out in Indiana who will keep neighbors and Commission updated."

July Term

August 27th, 2026

The Commission asked if they have ever sued a county. Mr. Mallet replied, "Never sued anyone, have always been able to work with the Counties."

John Wieczorek, Western District Commissioner stated, "Power not staying here." Mr. Mallet replied, "Goes to grid, this does go out locally with step down."

Tara Comer, Ralls County Collector asked, "How long panels last?" Mr. Mallet replied, "70% life in the lab test after 40 years. There is a bond covering from year 0 to year 40, and recycling contracts (highly recycle able materials)."

Shane McClelland, Ralls County Planning & Zoning Administrator left meeting at 10:15 am.

Mike Scholes asked, "Can asked why can't RCEC help and put Solar panels on residents' homes? Mr. Wallace replied, "The electricity is dirty."

Mr. Mallet suggested putting same on Data Centers – restrictions like landscaping and sound restrictions. Glen Wiley said, "This is the wrong place and bothering family health."

John Lake said, "I have not been contacted." Mr. Mallet advised, "They need to come in." Glen Wiley said, "They know because have reached out to farmers to farm the land." Mr. Mallett replied, "Everything outside the fence is still farming."

Mr. Muehring advised, "We need to do our own studies." Glen Wiley & Junior Muehring agreed, they need to look at both sides.

Mr. Mallett discussed Wind Turbines.

Ms. Thomas-Heath said she is trying to organize a group (with citizens) & County Commission to help set up regulations for Data Centers. She asked the Commissioners what their verbiage, what is a data center? Would love to stop from coming to county but don't know if we can. She also asked what Kristal Hiner does for the County and the County Clerk does.

Kanet Kuplunski, Ralls County citizen stopped by the meeting asking about Data Centers. She does not have social media and wanted to hear from the Commissioners.

John Lake said should bring to the vote of the people.

John Wieczorek mentioned having meetings in the evening, but who is going to attend? Ms. Thomas asked, "Are you going to get anywhere."

Brian Hodges, a Ralls County citizen, stopped by the Commission meeting.

The Ralls County Clerk, Brandy Flynn, spoke to the Commissioners regarding live streaming Commission meetings. She had a Ralls County citizen stop by her office and offered to anonymously donate the equipment to pay for live streaming the meetings.

THE RALLS COUNTY COMMISSION MEETING

Ralls County Presiding Commissioner, John Lake called the adjourned meeting to order at 9:00 am with the following members present, Junior Muehring, Eastern District Commissioner, John Wieczorek, Western District Commissioner, and Krysta Armour, Ralls County Voter Registration Clerk.

Junior Muehring opened the meeting with prayer.

The Pledge of Allegiance to the Flag was made.

Glen Wiley, Road and Bridge Supervisor, and Zach Epperson, Road and Bridge Employee, attended the meeting.

Tiffany McIntire stopped by the commission meeting to ask questions about the 'Masterplan' and what masterplan was used to create the current Planning and Zoning Ordinances. Also asked about the exceptions section of the Moratorium and hypothetical scenarios of data centers meeting these. Commissioners and Glen Wiley answered that everything is on hold with the datacenters until the moratorium is over or a vote occurs. The Moratorium is in place so the county can get their ducks in a row regarding rules and regulations concerning data centers.

Sandy Lanier stopped by the meeting to discuss Scotts Lane and the bridge on Scotts Lane. Inquired about the weight limit and when the county plans to fix the bridge. Commissioners- Older bridges have higher priority, BRO project is how the county gets funding to work on bridges. Matt Walker is working on the bridge plan right now.

Brian Allen, Ralls County Sheriff, stopped by the meeting.

Sandy Lanier brought up that the commissioners had previously stated that they had not signed an NDA and asked the Commissioners if they had talked to Josh Ketsenburg about if an NDA had been signed. Josh is a board member of HREDC.

Josh Ketsenburg, Ralls County Assessor, stopped by the meeting upon request. He stated that as a representative of Ralls County on the HREDC Board, he has signed an NDA for economic development as is required. He does not discuss with the commission because they have not signed an NDA.

The topic of filming commission meetings was brought up. Sandy Lanier asked if this was something the commissioners plan to look into and stated that during covid it was not recorded but people could watch it. Junior Muehring stated that they have not had time to discuss this topic but would be open to further discussion on it at a later time.

David Nutt stopped by the meeting and asked when the next planning and zoning meeting is. Commissioners stated that the next meeting has not been scheduled yet at this time.

Glen Wiley discussed Road and Bridge maintenance.

Kristal Hiner, Road & Bridge and Planning & Zoning Secretary, stopped by the commission meeting to present the commissioners with the official maintenance takeover of Alvina Lane & Lula Lane Letter for Mr. Dotson (Dotson & Gibbs) for the commission to sign. (see attached)
